

TESTIMONIALS

"We had the opportunity to have Tangerine Electric do electrical work for us on several occasions. We found them to be thorough, knowledgeable, conscientious and professional.

There are companies who will take short cuts or use inferior products. With Tangerine, there is only one way they will do it, the right way. I believe they would rather pass on the job than to compromise their integrity. These are rare but honorable characteristics."

"I am pleased to submit this letter of recommendation of Tangerine Electric. Tangerine Electric has been our sole contractor for the Lombard shopping plaza. They have worked in vacant stores preparing for new tenants and in retail stores during business hours causing a minimum number of interruptions. They have proven to be responsible, work clean and follow through on promises and agreements.

I am pleased to give my highest recommendation for Tangerine Electric."

"...I was not only pleased with the workmanship, but also the professionalism of Tangerine Electric. Once on site, they offered suggestions on easier ways to lay out the job, which helped to keep my costs below budget. This was greatly appreciated.

Since that first project, I have not felt it necessary to use anyone else or go for comparative bids. I knew they would be fair and honest, and have not disappointed me in any way.

I would not hesitate to recommend Tangerine Electric to anyone. They do an outstanding job."

"Len's Ace has been in business since 1959 and we have dealt with many contractors over the years. Tangerine Electric has been one of the best and most professional contractors we have dealt with. We recently remodeled one of our stores and the work was rather extensive. Sam and his crew were extremely accommodating in keeping our customers happy by not disturbing our daily operations. They worked while we were open and off hours to get the job done efficiently and promptly. I have been more than satisfied with all the work that they have done for us in the past and would highly recommend them for any size job."
